Aurora, an **innocent** second year **college student**, is enamoured with her tall **black professor**, Peter Donoghue. Aurora knows that nothing will come of it. When he invites her to research her dissertation with him in the **University library**, she knows that things could take a **public** and **taboo** turn with this **older man** who knows how to **dominate** impressionable young ladies.

Excerpt:

"I stood in front of the door to the lecture theater. I could hear Professor Donoghue's booming voice through the door as he explained some technical term or other. The only thing I was concentrating on right now was how to avoid humiliating myself utterly. I flip-flopped between going in or not, and realised that the only way I was to have a plausible excuse was if I actually attended the lecture, twenty minutes to go or not.

Taking a deep breath, I pushed the doors open and walked into the beginning of the sexiest experience of my life."
