In this modern day, we all want to be happy, healthy, and beautiful. Thanks to the modern times, we have access to all kinds of makeup and skin care that is supposed to help us stay our best, and keep that youthful glow.

There is just one problem, the products are all made of some sort of chemical that is sure to be bad for you in the long run, and make you leery of jumping in and rubbing it all over your skin.

Women have been using items to make them beautiful for thousands of years, and they have done it without any of the modern conveniences that we have before us today.

So what did they use? They didn't have all of the creams and lotions, or all of the makeup and chemicals that are supposed to fix the things that we don't like about ourselves, but they had to have a secret of some kind.

It is well known that women that lived thousands of years ago were beautiful. We know this because we have read about them, we have seen sculptures and paintings that represent them, and we have heard about them. So what did they use?

The answer is simple: oils. These women and countless others in history knew of all of the health benefits of oil, and what it can do for you. That is why we have put together this book, so you, too, can enjoy all of the same benefits that they did.
