Compact Lie Groups (Graduate Texts in Mathematics)

Mark R. Sepanski

Compact Lie Groups (Graduate Texts in Mathematics) Mark R. Sepanski

Blending algebra, analysis, and topology, the study of compact Lie groups is one of the most beautiful areas of mathematics and a key stepping stone to the theory of general Lie groups. Assuming no prior knowledge of Lie groups, this book covers the structure and representation theory of compact Lie groups. Coverage includes the construction of the Spin groups, Schur Orthogonality, the Peter-Weyl Theorem, the Plancherel Theorem, the Maximal Torus Theorem, the Commutator Theorem, the Weyl Integration and Character Formulas, the Highest Weight Classification, and the Borel-Weil Theorem. The book develops the necessary Lie algebra theory with a streamlined approach focusing on linear Lie groups.

From reader reviews:

Filiberto Dacosta:

Spent a free the perfect time to be fun activity to perform! A lot of people spent their sparetime with their family, or their friends. Usually they undertaking activity like watching television, about to beach, or picnic in the park. They actually doing ditto every week. Do you feel it? Do you wish to something different to fill your own free time/ holiday? May be reading a book could be option to fill your cost-free time/ holiday. The first thing you ask may be what kinds of book that you should read. If you want to try look for book, may be the reserve untitled Compact Lie Groups (Graduate Texts in Mathematics) can be excellent book to read. May be it could be best activity to you.

Arlene Farrar:

Do you one of the book lovers? If yes, do you ever feeling doubt when you find yourself in the book store? Try to pick one book that you just dont know the inside because don't assess book by its deal with may doesn't work is difficult job because you are afraid that the inside maybe not as fantastic as in the outside appear likes. Maybe you answer can be Compact Lie Groups (Graduate Texts in Mathematics) why because the amazing cover that make you consider about the content will not disappoint an individual. The inside or content is fantastic as the outside or maybe cover. Your reading sixth sense will directly show you to pick up this book.

Richard Eby:

In this era globalization it is important to someone to find information. The information will make professionals understand the condition of the world. The fitness of the world makes the information quicker to share. You can find a lot of referrals to get information example: internet, paper, book, and soon. You will see that now, a lot of publisher this print many kinds of book. The particular book that recommended to you personally is Compact Lie Groups (Graduate Texts in Mathematics) this reserve consist a lot of the information on the condition of this world now. This particular book was represented how can the world has grown up. The words styles that writer value to explain it is easy to understand. Typically the writer made some study when he makes this book. Honestly, that is why this book suitable all of you.

Helen Butts:

Reading a guide make you to get more knowledge as a result. You can take knowledge and information originating from a book. Book is prepared or printed or illustrated from each source in which filled update of news. On this modern era like currently, many ways to get information are available for anyone. From media social including newspaper, magazines, science book, encyclopedia, reference book, book and comic. You can add your understanding by that book. Ready to spend your spare time to spread out your book? Or just seeking the Compact Lie Groups (Graduate Texts in Mathematics) when you necessary it?
