Conversational Arabic Quick and Easy: Jordanian Dialect, Jordanian Arabic, Levantine arabic colloquial Yatir Nitzany

Have you always wanted to learn how to speak Jordanian Arabic but simply didn't have the time?

Well look no further. You hold in your hands the most advanced and revolutionary method that was ever designed for QUICKLY becoming conversational in a language. In creating this time saving program, master linguist Yatir Nitzany spent nearly three years examining the 27 most common languages in the world and distilling from them the 350 words that are most likely to be used in real conversations. These 350 words were chosen in such a way that they are structurally interrelated, and when combined, they form sentences. Through various other discoveries about how real conversations work, that are detailed further in this book, Nitzany created the necessary tools for linking these words together in a specific way so that you may to become fluent NOW.

If your desire is to learn complicated grammatical rules, or to speak Shakespearean Arabic, this book is NOT for you. However, if you need to actually hold a conversation whilst on a trip to Jordan or another Arab speaking country, to impress that certain someone, or to be able to speak with your grandfather or grandmother as soon as possible, then the Nitzany Method is what you have been looking for.

This book is recommended for those who already have prior knowledge in pronunciation of Arabic accents (such as the Arabic accents: "ayin", "ghayn", "ha", and "khaf"). For those of you that DO NOT, this book does indeed provide some great, in depth techniques (page #15) as to the pronunciation and recognition of these accents that you will encounter throughout the program. These techniques have proven extremely beneficial for beginner students who were previously unfamiliar with these accent pronunciations. Jordanian Arabic encompasses three slightly different dialects; urban, rural, and Bedouin. The one featured in this book, is the urban dialect. In Jordanian dialect, verb conjugation is irregular and this book will NOT teach you those skills since this is NOT a grammar book. In most languages, including Classical Arabic, a conjugated verb is always followed by an infinitive verb, but this is NOT the case in the Jordanian colloquial dialect since every verb in the sentence must be conjugated. Keep in mind that Jordanian Arabic is not an official language, but rather is a colloquial dialect. The purpose of my method is solely to give you the tools to create your own sentences in order to become conversational, while in regards to grammar, pronunciation, etc.. you are on your own!

This method is designed for fluency in a foreign language, while communicating in the first person. Nitzany believes that what's most important is actually being able to understand and be understood by another human being right away. Therefore, unlike other courses, all words in this program are taught in English transliteration, without having to learn a complex foreign alphabet. More formalized training in grammar rules, learning to write in a foreign alphabet, etc. can all come later.

The first in a series of instructional language guides, the Nitzany Method's revolutionary approach is the only one in the world that uses it's unique language technology to actually enable you to speak and understand native speakers in the shortest amount of time possible. No more depending on volumes of books of fundamental, beginner, intermediate, and advanced levels, all with hundreds of pages in order to learn a language. With "Conversational Arabic Quick and Easy" all you need are 42 pages. This book has proven

useful for beginners, intermediate, and advanced speakers of the Arabic language.

Learn Arabic today, not tomorrow, and get started NOW!

Note from the Author: This book is by NO means, NOR shape, NOR form a phrase book!! Please start at the beginning of program (page#16) and fully master one page at a time prior to proceeding to the next, otherwise you will overwhelm yourself and fail.
