Ted Bundy is one of the most notorious serial killers in recent US history. Born in 1946, Bundy murdered a number of young women in the 1970s, eventually confessing to 36 murders, although it is likely that he committed many more than that. A smooth talking psychopath who would approach his victims in public before abducting and killing them, he was executed in Florida's electric chair in 1989, having gained a certain notoriety during his trial as a result of his apparent charm and good looks.

The True Crime Shorts series is intended to give the reader a short, concise account of some of the most gruesome crimes in modern times. Each book provides the reader with the essential facts concerning a serial killer, along with analysis that tries to comprehend their motives; no distractions, just the essential facts, allowing the reader to master the case in the shortest time possible.
