Deadly Arsenals: Nuclear, Biological, and Chemical Threats Joseph Cirincione, Jon B. Wolfsthal, Miriam Rajkumar

Deadly Arsenals provides the most up-to-date and comprehensive assessment available on global proliferation dangers, with a critical assessment of international enforcement efforts. An invaluable resource for academics, policymakers, students, and the media, this atlas includes strategic and historical analysis; maps, charts, and graphs of the spread of nuclear, chemical, and biological weapons and missile delivery systems; descriptions of the weapons and regimes—and policies to control them; and data on countries that have, want, or have given up weapons of mass destruction. A Choice outstanding academic title from one of the premier nonproliferation research teams. The new edition addresses the recent, dramatic developments in Iran, Iraq, Libya, North Korea, and the nuclear black market, analyzing strategic and policy implications.

Contents: Part 1: Assessments and Weapons Part 2: Declared Nuclear-Weapon States Part 3: Non-NPT Nuclear-Weapon States Part 4: The Two Hard Cases: North Korea and Iran Part 5: Proliferation Success

Francisco Garcia:

This Deadly Arsenals: Nuclear, Biological, and Chemical Threats is great guide for you because the content that is certainly full of information for you who all always deal with world and still have to make decision every minute. This particular book reveal it information accurately using great manage word or we can state no rambling sentences included. So if you are read the idea hurriedly you can have whole info in it. Doesn't mean it only offers you straight forward sentences but tough core information with wonderful delivering sentences. Having Deadly Arsenals: Nuclear, Biological, and Chemical Threats in your hand like finding the world in your arm, data in it is not ridiculous one. We can say that no guide that offer you world inside ten or fifteen second right but this e-book already do that. So , this can be good reading book. Hi Mr. and Mrs. occupied do you still doubt this?

Jose Roberts:

As a pupil exactly feel bored to help reading. If their teacher requested them to go to the library in order to make summary for some e-book, they are complained. Just minor students that has reading's soul or real their interest. They just do what the instructor want, like asked to go to the library. They go to right now there but nothing reading very seriously. Any students feel that examining is not important, boring along with can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important for you personally. As we know that on this time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore , this Deadly Arsenals: Nuclear, Biological, and Chemical Threats can make you sense more interested to read.
