This book provides educators with an accessible guide to best practices concerning content-based instruction (CBI) models and their use in English learner inclusive classrooms. The author effectively bridges the gap between theory and practice with a critical analysis of practical examples and diverse strategies for the inclusion of English learners into K-12 general education courses. The book also raises controversial questions regarding who is qualified to teach English learners and who is responsible for doing so, looking at the difficulties faced by both general educators and ESL teachers in Inclusive Classrooms. By providing a lens through which both ESL teachers and general educators are able to analyze, compare and contrast a range of widely-employed CBI methods, this book allows teachers to make informed decisions in their EL program development and work with English learners in K-12 schools.
