Conducting Clinical Research: A Practical Guide for Physicians, Nurses, Study Coordinators, and Investigators Judy Stone

In *Conducting Clinical Research: A Practical Guide for Physicians, Nurses, Study Coordinators, and Investigators*, you will discover how to

Attract drug companies to your site

Land a study on good terms

Recruit patient volunteers --- and keep them happy!

Implement easy strategies for coordinating studies

Organize your clinical trial activities

Demystify regulatory requirements

Conducting Clinical Research is a practical, user-friendly how-to manual for medical professionals, physicians, nurses, study coordinators and investigators who are interested in learning what it takes to carry out clinical trials. Everything is covered from how drugs are developed to how to attract drug companies to a site, land a study, recruit volunteers, coordinate studies, organize clinical trial activities and navigate regulatory requirements. Even ethical and social issues are discussed. Comprehensive appendices offer essential background, resources, sample forms and worksheets, and information about careers and training programs.

The book was a Ben Franklin Awards 2007 Finalist and a 2007 Finalist in Foreword Magazines reference category for professional/technical books.

Clarence Duncan:

Your reading sixth sense will not betray you actually, why because this Conducting Clinical Research: A Practical Guide for Physicians, Nurses, Study Coordinators, and Investigators e-book written by well-known writer who really knows well how to make book that may be understand by anyone who have read the book. Written in good manner for you, still dripping wet every ideas and publishing skill only for eliminate your hunger then you still question Conducting Clinical Research: A Practical Guide for Physicians, Nurses, Study Coordinators, and Investigators as good book not simply by the cover but also from the content. This is one publication that can break don't judge book by its cover, so do you still needing yet another sixth sense to pick that!? Oh come on your studying sixth sense already told you so why you have to listening to yet another sixth sense.

Constance Argueta:

As a pupil exactly feel bored to help reading. If their teacher expected them to go to the library as well as to make summary for some book, they are complained. Just tiny students that has reading's internal or real their leisure activity. They just do what the professor want, like asked to the library. They go to generally there but nothing reading really. Any students feel that reading is not important, boring as well as can't see colorful photos on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this age, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country.

Therefore , this Conducting Clinical Research: A Practical Guide for Physicians, Nurses, Study Coordinators, and Investigators can make you truly feel more interested to read.
