How To Build And Frame Stairs With Landings (How To Build Stairs) (Volume 2) Greg Vanden Berge

This book is part of a series designed for professionals and do-it-yourselfers to provide them with what I consider to be a simplified step-by-step process for designing and assembling different types of stairs. Each book will be written and illustrated specifically for the type of stairway specified in the title. Book 1 - How to Frame and Build Stairs This book provides you with step-by-step detailed instructions on how to design, layout stair stringers and build a variety of different sized straight stairways. Sections of this book or the entire book will be included in some of the other books as noted. Book 2 - How to Frame and Build Stairs with Landings This book includes book 1 and will provide you with step-by-step detailed instructions on how to design, position and build stairs with landings. This is the first series of stair building books written by Greg Vanden Berge, but they are not the first books he has written about stairs. For more information or to contact us you can visit the website: <http://stairs4u.com>. We are currently working on the books listed below. Book 4 - How to Build and Frame Circular Stairs Book 5 - How to Build Stairs Using Metal Brackets Book 6 - How to Build Stairs with Odd Shapes Book 7 - How to Build Stairs with Routed Stringers Book 8 - How to Build and Frame Stair Handrails Repeat... Do Not Purchase Book 1 Because It Is Included In This Book!!!
