Leading Technology-Rich Schools (Technology & Education, Connections (Tec)) Barbara B. Levin, Lynne Schrum

"Barbara B. Levin and Lynne Schrum offer their readers the distinct advantage of compressing into a single volume what it took me decades to learn. They not only present the big ideas of effective school leadership, but bring them alive through case studies that illustrate how those ideas manifest themselves in leaders day-to-day behaviors. . . . I encourage you to use the ideas and practices you find here to leverage technology to create schools in which all students and adults thrive. "

--From the Foreword by **Dennis Sparks**, Emeritus Executive Director, National Staff Development Council (Learning Forward)

This timely book shows how award-winning secondary schools and districts are successfully using technology and making systemic changes to increase student engagement, improve achievement, and reinvigorate the teaching and learning process. Through in-depth case studies, we see how experienced school and district leaders use technology in curricular, administrative, and analytical ways to meet the needs of 21st-century learners, educators, and communities. These cases reveal important details addressed by the leadership of these schools and districts that go beyond what they did with technology to include changes in school culture, curriculum and teaching, uses of assessment data, financial considerations, infrastructure, and involvement with the community.
