Essays on Religion, Science, and Society Herman Bavinck, John Bolt

Herman Bavinck, the premier theologian of the Kuyper-inspired, neo-Calvinistic revival in the late-nineteenth-century Netherlands, is an important voice in the development of Protestant theology. *Essays on Religion, Science, and Society* is the capstone of his distinguished career. These seminal essays offer an outworking of Bavinck's systematic theology as presented in his *Reformed Dogmatics* and engage enduring issues from a biblical and theological perspective. The work presents his mature reflections on issues relating to ethics, education, politics, psychology, natural science and evolution, aesthetics, and philosophy of religion.

This collection--Bavinck's most significant remaining untranslated work--is now available in English for the first time. Pastors, students, and scholars of Reformed theology will value this work.
