Encyclopedia of Global Environmental Governance and Politics

Philipp H. Pattberg, Fariborz Zelli

Encyclopedia of Global Environmental Governance and Politics Philipp H. Pattberg, Fariborz Zelli

'The Encyclopedia of Global Environmental Governance and Politics is an indispensable resource for researchers and students of global environmental governance. With balance and precision, entries by world-leading experts catalogue existing knowledge as well as offer new insights into the concepts, theories, institutions, and actors shaping core debates and issues.'

- Peter Dauvergne, University of British Columbia, Canada

'The Encyclopedia of Global Environmental Governance and Politics provides a comprehensive starting-point for understanding the complex and contested nature of global environmental governance. Pattberg and Zelli have assembled an impressive array of contributions written by leading scholars in their fields. The superbly edited volume provides an indispensable knowledge base for understanding - and tackling - the environmental challenges of the emerging Anthropocene.'

- Robert Falkner, London School of Economics and Political Science, UK and editor, *Handbook of Global Climate and Environment Policy*

'This volume offers a balanced and differentiated perspective and review of the most relevant issues, methodologies, theories and trends in the study of global environmental governance and politics. In 68 key entries leading scholars introduce, explain and discuss systematically the main concepts, the most important findings and the future outlook. An indispensable compendium for scholars, students, practitioners and libraries engaged in environmental politics and governance around the world.'

- Arthur P.J. Mol, Wageningen University, the Netherlands

The *Encyclopedia of Global Environmental Governance and Politics* surveys the broad range of environmental and sustainability challenges in the emerging Anthropocene and scrutinizes available concepts, methodological tools, theories and approaches, as well as overlaps with adjunct fields of study.

This comprehensive reference work, written by some of the most eminent academics in the field, contains 68 entries on numerous aspects across 7 thematic areas, including concepts and definitions; theories and methods; actors; institutions; issue-areas; cross-cutting questions; and overlaps with non-environmental fields. With this broad approach, the volume seeks to provide a pluralistic knowledge base of the research and practice of global environmental governance and politics in times of increased complexity and contestation.

Providing its readers with a unique point of reference, as well as stimulus for further research, this *Encyclopedia* is an indispensable tool for anyone interested in the politics of the environment, particularly students, teachers and researchers.
