Pain Assessment and Pharmacologic Management - Elsevier E-Book on VitalSource (Retail Access Card), 1e Betty Rolling Ferrell, Chris Pasero MS RN-BC FAAN, Margo McCaffery MS RN-BC FAAN

- **Presents best practices and evidence-based guidelines** for assessing and managing pain most effectively with the latest medications and drug regimens.
- **Features detailed, step-by-step guidance on effective pain assessment** to help nurses appropriately evaluate pain for each patient during routine assessments.
- **Provides reproducible tables, boxes, and figures** that can be used in clinical practice.
- **Contains *Patient Medication Information forms*** for the most commonly used medications in each analgesic group, to be copied and given to patients.
- **Offers the authors' world-renowned expertise in five sections:**
 1. **Underlying Mechanisms of Pain and the Pathophysiology of Neuropathic Pain** includes figures that clearly illustrate nociception and classification of pain by inferred pathology.
 2. **Assessment** includes tools to assess patients who can report their pain as well as those who are nonverbal, such as the cognitively impaired and critically ill patients. Several pain-rating scales are translated in over 20 languages.
 3. **Nonopioids** includes indications for using acetaminophen or NSAIDs, and the prevention and treatment of adverse effects.
 4. **Opioids** includes guidelines for opioid drug selection and routes of administration, and the prevention and treatment of adverse effects.
 5. **Adjuvant Analgesics** presents different types of adjuvant analgesics for a variety of pain types, including persistent (chronic) pain, acute pain, neuropathic pain, and bone pain. Prevention and treatment of adverse effects is also covered.
- **Includes helpful Appendices** that provide website resources and suggestions for the use of opioid agreements and for incorporating pain documentation into the electronic medical record.
- **Covers patients** from young adults to frail older adults.
- **Provides evidence-based, practical guidance** on planning and implementing pain management in accordance with current TJC guidelines and best practices.
- **Includes illustrations to clarify concepts and processes** such as the mechanisms of action for pain medications.
- **Features spiral binding** to facilitate quick reference.

Shannon Thomas:

That e-book can make you to feel relax. That book Pain Assessment and Pharmacologic Management - Elsevier E-Book on VitalSource (Retail Access Card), 1e was multi-colored and of course has pictures on the website. As we know that book Pain Assessment and Pharmacologic Management - Elsevier E-Book on VitalSource (Retail Access Card), 1e has many kinds or variety. Start from kids until young adults. For example Naruto or Investigator Conan you can read and think you are the character on there. Therefore , not at all of book are generally make you bored, any it can make you feel happy, fun and unwind. Try to choose the best book to suit your needs and try to like reading that will.

Ida Acord:

As a scholar exactly feel bored to be able to reading. If their teacher requested them to go to the library or to make summary for some publication, they are complained. Just very little students that has reading's internal or real their leisure activity. They just do what the trainer want, like asked to the library. They go to there but nothing reading really. Any students feel that reading is not important, boring and can't see colorful images on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this era, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. So , this Pain
